EDUCATION

University of Toronto (St. George Campus) — Toronto, Canada
Master of Engineering in Financial Engineering & Machine Learning — Sep 2024 – Dec 2025
- Financial Engineering: coursework in quantitative finance, derivatives pricing, risk management and portfolio optimization
- Machine Learning: coursework in predictive modeling, cloud-based data analytics, blockchain and cryptocurrency markets

Bachelor of Science in Economics & Statistics — Sep 2019 – Dec 2022
- Applied Python-based big-data analytics to conduct economic and financial analysis across statistics and economics courses
- Built a strong foundation in microeconomics, macroeconomics and financial economics alongside formal statistical training

EXPERIENCE

Quantum International Corp. (QIC) — Taipei, Taiwan
Junior Analyst — Jun 2026 – Present
- QIC is known as Taiwan's "Small McKinsey" for helping small and mid-cap listed companies enhance their equity value
- Founded and led by Alex Lee who spent 30 years in investment banking as GM at Credit Suisse, Deutsche Bank and Yuanta
- Cover clients including Gogolook (6902 TT), Dyaco (1598 TT), Nan Pao (4766 TT), Chlitina (4137 TT), Chung Jye (6965 TT), Century Wind Power (2072 TT) and Dong Fang Offshore (7786 TT) on their investor relations programs
- Conduct market research and write initiation reports on client companies across semiconductors and traditional industries
- Track macro and micro factors affecting client industries from interest rates and FX to raw-material costs and end-demand
- Provide clients and their management teams with guidance on engaging institutional investors, PMs and sell-side analysts
- Restructure client earnings-call decks around a constructive outlook: five-year plan, revenue CAGR and ROE targets
- Host QIC CEO Week, non-deal roadshows and power dinners that bring global institutional investors to client management

First Commercial Bank — Ontario, Canada
Syndicated Loan Assistant Manager — Apr 2024 – Aug 2024

Polymer Capital Management — Taipei, Taiwan
Equity Research Associate — Oct 2023 – Dec 2023
- Polymer is a US$4B+ market-neutral multi-manager hedge fund platform focused on Asian equities across the region
- Worked as research associate to PM Andy Kung (ex-J.P. Morgan) who runs a US$500M+ pod
- Conducted fundamental equity research on Asian stocks and ETFs to generate and present new investment ideas
- Produced written equity research reports, attended company earnings calls and supported the PM's portfolio decisions
- Built financial models to evaluate company valuations, growth potential and risk-return profiles of candidate positions
- Monitored daily market trends and sector developments across Asia to identify actionable equity opportunities

Toronto-Dominion Bank — Ontario, Canada
Credit Card Risk Co-op — Jan 2023 – Jun 2023
- Conducted qualitative and quantitative risk assessments of new acquisitions and projects across the credit card business
- Analyzed card strategy and policy changes for regulatory compliance and recommended updates in line with risk appetite
- Improved the team's recurring reporting and analytics by combining multiple internal data sources in SQL and Excel

Standard Chartered Bank — Taipei, Taiwan
Wealth Management APAC Program — Apr 2022 – Sep 2022
- Researched mutual funds, structured notes, bonds, equities and ETFs across Asia for investment product development
- Built SC Wealth Management Taiwan's equity and ETF AUM mapping model as well as its in-house ETF research engine
- Constructed the profit-and-loss equations behind evergreen discount-rate promotion projects on equities and ETFs

Athena Capital — Taipei, Taiwan
Equity Research Intern — Apr 2021 – Sep 2021
- Reviewed 50+ US SPAC presentations to analyze their shareholder profiles, technology innovation and business outlook
- Participated in 100+ investor meetings over six months to track sector developments and new investment ideas in Asia
- Built relationships with China ADR issuers such as Pinduoduo, DiDi and RLX Technology and arranged investor meetings

SinoPac Securities — Taipei, Taiwan
Equity Research Intern — Apr 2020 – Sep 2020
- Attended earnings calls of US-listed companies and took notes on quarterly results, guidance and management commentary
- Joined the research team's daily morning meeting where analysts reviewed overnight US market moves and sector news
- Gained first exposure to the semiconductor industry which sparked an interest that grew into the research website above
